

Shubham Guha

Quick learner, Adaptive

SUMMARY

To achieve a position in the organization where I can utilize my skills to deliver work with excellence, contribute to team goals and continually expand my knowledge and capabilities.

EXPERIENCE

Currently working on WordPress Technology (PAT in Cognizant)

Designing custom plugins, optimizing functionalities, and delivering tailored solutions to meet specific needs.

Domain – Dotnet Standard (Completed CSD training in this technology)

Engaged in a comprehensive training program focused on the .NET Standard, which includes foundational knowledge of C#, the Entity Framework, query composition, and the Model-View-Controller (MVC) architectural pattern.

PROJECTS

WordPress – Photography Website

Pictobit Symphony, built on WordPress, features intuitive navigation like About Me, Gallery, and Contact, enhanced with interactive plugins for a seamless user experience.

Dotnet Web Application 1 - eBook Management System

System MVC5 and entity framework is used for this project. Technology used C# (Microsoft Visual Community Edition), SQL SERVER(SSMS). etc.

Dotnet Web Application 2 - HR Management System

System MVC Core (CodeFirst Approach) is used for this project. Technology used C# (Microsoft Visual Community Edition), SQL SERVER(SSMS). etc.

R Programming — Web Scrapping

Website – (Data Manipulation and Visualization)

https://en.wikipedia.org/wiki/Universities_and_colleges_of_West_Bengal

https://www.imdb.com/search/title/?groups=top_250&sort=user_rating

College Project — Quiz Examination Portal

My role – *Visualized candidates stats/scores using various graphs and charts, and also generated Excel files containing candidate statistics. Additionally, I worked bit on both front-end (HTML, CSS) and backend tasks, especially DBMS part, and more.*

Student of TIU

ID – 181001091007
